Subject: RE: P MEC400 - Draft Module Guide

Dear Dr Ismail

Thank you for the amazing work you did on this module. I am blown away. The module is almost ready to be sent to the external reviewers.

You are indeed an asset to our Faculty. We undoubtedly made the correct decision.

We will chat tomorrow.

Have a good night's rest.

Regards

Heloise

Subject: Re: Lesson plan and Rubric

Dear Dr Ismail

Attached is two lesson plans (a template and completed one), as well as a SBL Guide. The lesson plan evaluation rubric is towards the end of the SBL Guide.

Thank you for contributing to me as a person. You are a shining diamond.

Regards

Andre

Doc,

I am very refreshed as I am about to go to work. You have made my day.

Look, it takes people whose inner being is limitless, selfless, humane and insightful to notice "unexploited potential in other beings". What Prof du Plessis is doing is something I have noticed in him. I am very happy for you. You deserve something. Keep doing the good things and Allah is always good for us.

Offer my regards to the family. Thank you for keeping in touch.

Here, so far so good. I am very happy to see my little contribution.

I will ask you at some stage for support for my research on Islamic NGOs in Malawi. It has come to my attention now that we need more information for a comparative analysis.

Subject: DIVERSITY MONTH - BADROEN TO CO-ORDINATE WITH ME

Dear Badroen

I wish to express my heartfelt thanks to you for agreeing to co-ordinate the diversity month activities with me as your mentor. Hopefully next year you will be able to co-ordinate the activities, which will be my contribution to succession mentoring.

I will keep you informed about all the activities and will attend the NMU Institution meetings!

Thanks for your openness, excellent camaraderie, gentle ways and kind demeanour. It is truly lovely to be associated with someone of your calibre, enthusiasm and willingness to learn for your own personal growth and development.

Kind regards

Logan

Subject: Student access during Covid

Dear Ismail

Thank you so much for responding to Ms Gerber's message and concerns. I know you will do your best to support your students in the most humane way. I am hugely impressed with the progress you and your students have made thus far! Well done!

Kind regards

Shervani
