

## GENERAL INFORMATION ABOUT THIS MODULE

# Faculty of Education

Dear POSD441-444 Student :)

Welcome to our POSD441-444 Method of FET Economics module!

This **10-credit, year-long, 100% Continuous Assessment (CASS) mark module** will provide you with (i) a clear understanding and knowledge of Economics as a subject discipline; and (ii) an effective humanising teaching, learning and assessment strategy that will enable Grades 10-12 learners, within and outside the classroom context, to understand and appreciate the importance of Economic literacy in our everyday lives.

All POSD441-444 Method of FET Economics students are expected to spend a total of 100 notional hours on the module. For each hour of contact time, you need to do an additional three to four hours of work on your own. Notional-hour activities include: reading your module notes and other materials, preparing for your next contact session by reading/studying prescribed and supplementary materials, preparing to participate in class discussions, completing key assignments as well as working on your Method Journal.

Since the assignments completed for your Method Journal represent the sole evidence of your competencies developed in this module, it is important that you devote significant time to its completion. While your lecturer may set additional submission dates for specific minor class activities and/or major assignments for formative evaluation, your **final Method Journal must be submitted on 23 October 2020**.

In conclusion: Economics is a challenging and complex subject to teach to students. Successful completion of this module should make this task less daunting and more rewarding by giving novice Economics teachers the knowledge and information they need to enhance their teaching and improve student learning. We trust you will find this module academically stimulating and professionally rewarding.

Should you have any questions/queries/concerns, please do not hesitate to contact your lecturer (**Dr Badroen Ismail**) at [badroen.ismail@mandela.ac.za](mailto:badroen.ismail@mandela.ac.za) or at 041-5044016.

## REMOTE TEACHING DURING COVID-19 LOCKDOWN

# BREAKING NEWS

My fellow POSD441-444 Method of Economics classmates :)

The COVID-19 pandemic has disrupted life as we knew it and has brought about changes in different spheres of our lives. In the interest of saving lives and reducing the spread of the Coronavirus, our government, just like many other policymakers around the world, made the difficult decision to close schools, colleges, and universities until such time when the COVID-19 pandemic is under control. In support of your academic goals, Management at Nelson Mandela University decided to move learning and teaching (L&T) online, on an untested and unprecedented scale. Instruction and assessments will now take place via various electronic platforms (i.e. Moodle, Whatsapp, Zoom, live-streaming, etc.). While we acknowledge that this new form of L&T may be stressful for students, we, as lecturers in the Faculty of Education, endeavor to provide you with the necessary academic and psychological support needed during this period of uncertainty. When you log into your POSD441ECO Moodle portal (enrolment key: "method") you will find wholly revamped sites that facilitate ease-of-use, flow, and a multitude of informative video lessons.

### ASSESSMENTS

Over the next month, you will be required to complete TWO Assignments by 29 May 2020. These assignments are available in Word format. These assignments focus on the following: (i) Classroom Management and Discipline; and (ii) the CAPS Policy document.

While we have already touched on these topics before the cancellation of lectures, I have taken the liberty to upload detailed videos/lectures (nothing longer than 15 minutes each) on Moodle for you to work through. **The Moodle system will NOT allow you to access and complete Assignment 2 (Classroom Management and Discipline) and Assignment 3 (CAPS) UNLESS you have watched the videos / lectures related to these topics.**

**Assignment 2 is due at midnight on 15 May 2020.**

**Assignment 3 is due at midnight on 29 May 2020.**

My suggested work schedule for you over the next few weeks can be summarised as follows:

4 MAY	11 MAY	18 MAY	25 MAY	29 MAY
<b>VIDEOS – CLASSROOM MANAGEMENT</b> <ul style="list-style-type: none"><li>• Watch 7 Classroom Management videos on the Moodle site.</li><li>• Download and read through the requirements for Assignment #2.</li></ul>	<b>ASSIGNMENT #2 – CLASSROOM MANAGEMENT</b> <ul style="list-style-type: none"><li>• Work on Assignment #2.</li><li>• Submit Assignment #2 on Classroom Management via Moodle <b>before 00:00 on Friday, 15 May 2020.</b></li></ul>	<b>VIDEOS – CAPS POLICY DOCUMENTS</b> <ul style="list-style-type: none"><li>• Watch 5 CAPS – related videos on Moodle site.</li><li>• Download CAPS documents and Assignment #3 from Moodle site.</li></ul>	<b>ASSIGNMENT #3 – CAPS POLICY DOCUMENTS</b> <ul style="list-style-type: none"><li>• Work on Assignment #3.</li><li>• Submit Assignment #3 on CAPS via Moodle <b>before 00:00 on Friday, 29 May 2020.</b></li></ul>	<b>VIDEOS – LESSON PLANNING &amp; DESIGN</b> <ul style="list-style-type: none"><li>• Watch 5 Lesson Planning videos on Moodle site.</li><li>• Assignment #4 (due after the June Recess) will be on a full lesson plan.</li><li>• Details to follow.</li></ul>

### BLENDED APPROACH AND FACE TO FACE SUPPORT

Students will be able to move between submitting assignments on Moodle (Pathway 1) and submitting via Email or WhatsApp (Pathway 2). If the lockdown requirements are lifted there will also be an intense 2-week face-to-face session to deal with the 2 topics indicated above during the first two weeks of June for those students who require it. The lecturer will follow-up with students to determine who will require the face-to-face session.

June for those students who I taught in the lecture. Will follow up with students to determine who will require a face-to-face session.

## CONCLUSION

Please do not hesitate to contact your lecturer with any queries or concerns. We find ourselves in a challenging time and I hereby wish to confirm that the university is committed to supporting you to complete the 2020 academic year. Please be encouraged to do your part because together we can get through this.

Everything of the best & stay safe. :)

Using Flipgrid isn't about recording videos...it's about learning. Learning that is social, personal, can happen anywhere and anytime, about making connections, it's deep exploration, and promotes that everyone is a teacher and everyone is a learner.

- ❖ If you are bored, then please visit the [Flipgrid](#) website below to familiarise yourself with the objectives, layout, and functions of the page. You will need to access this webpage again later to record your Microteaching lessons (if the national lockdown is still enforced).

Edit▼

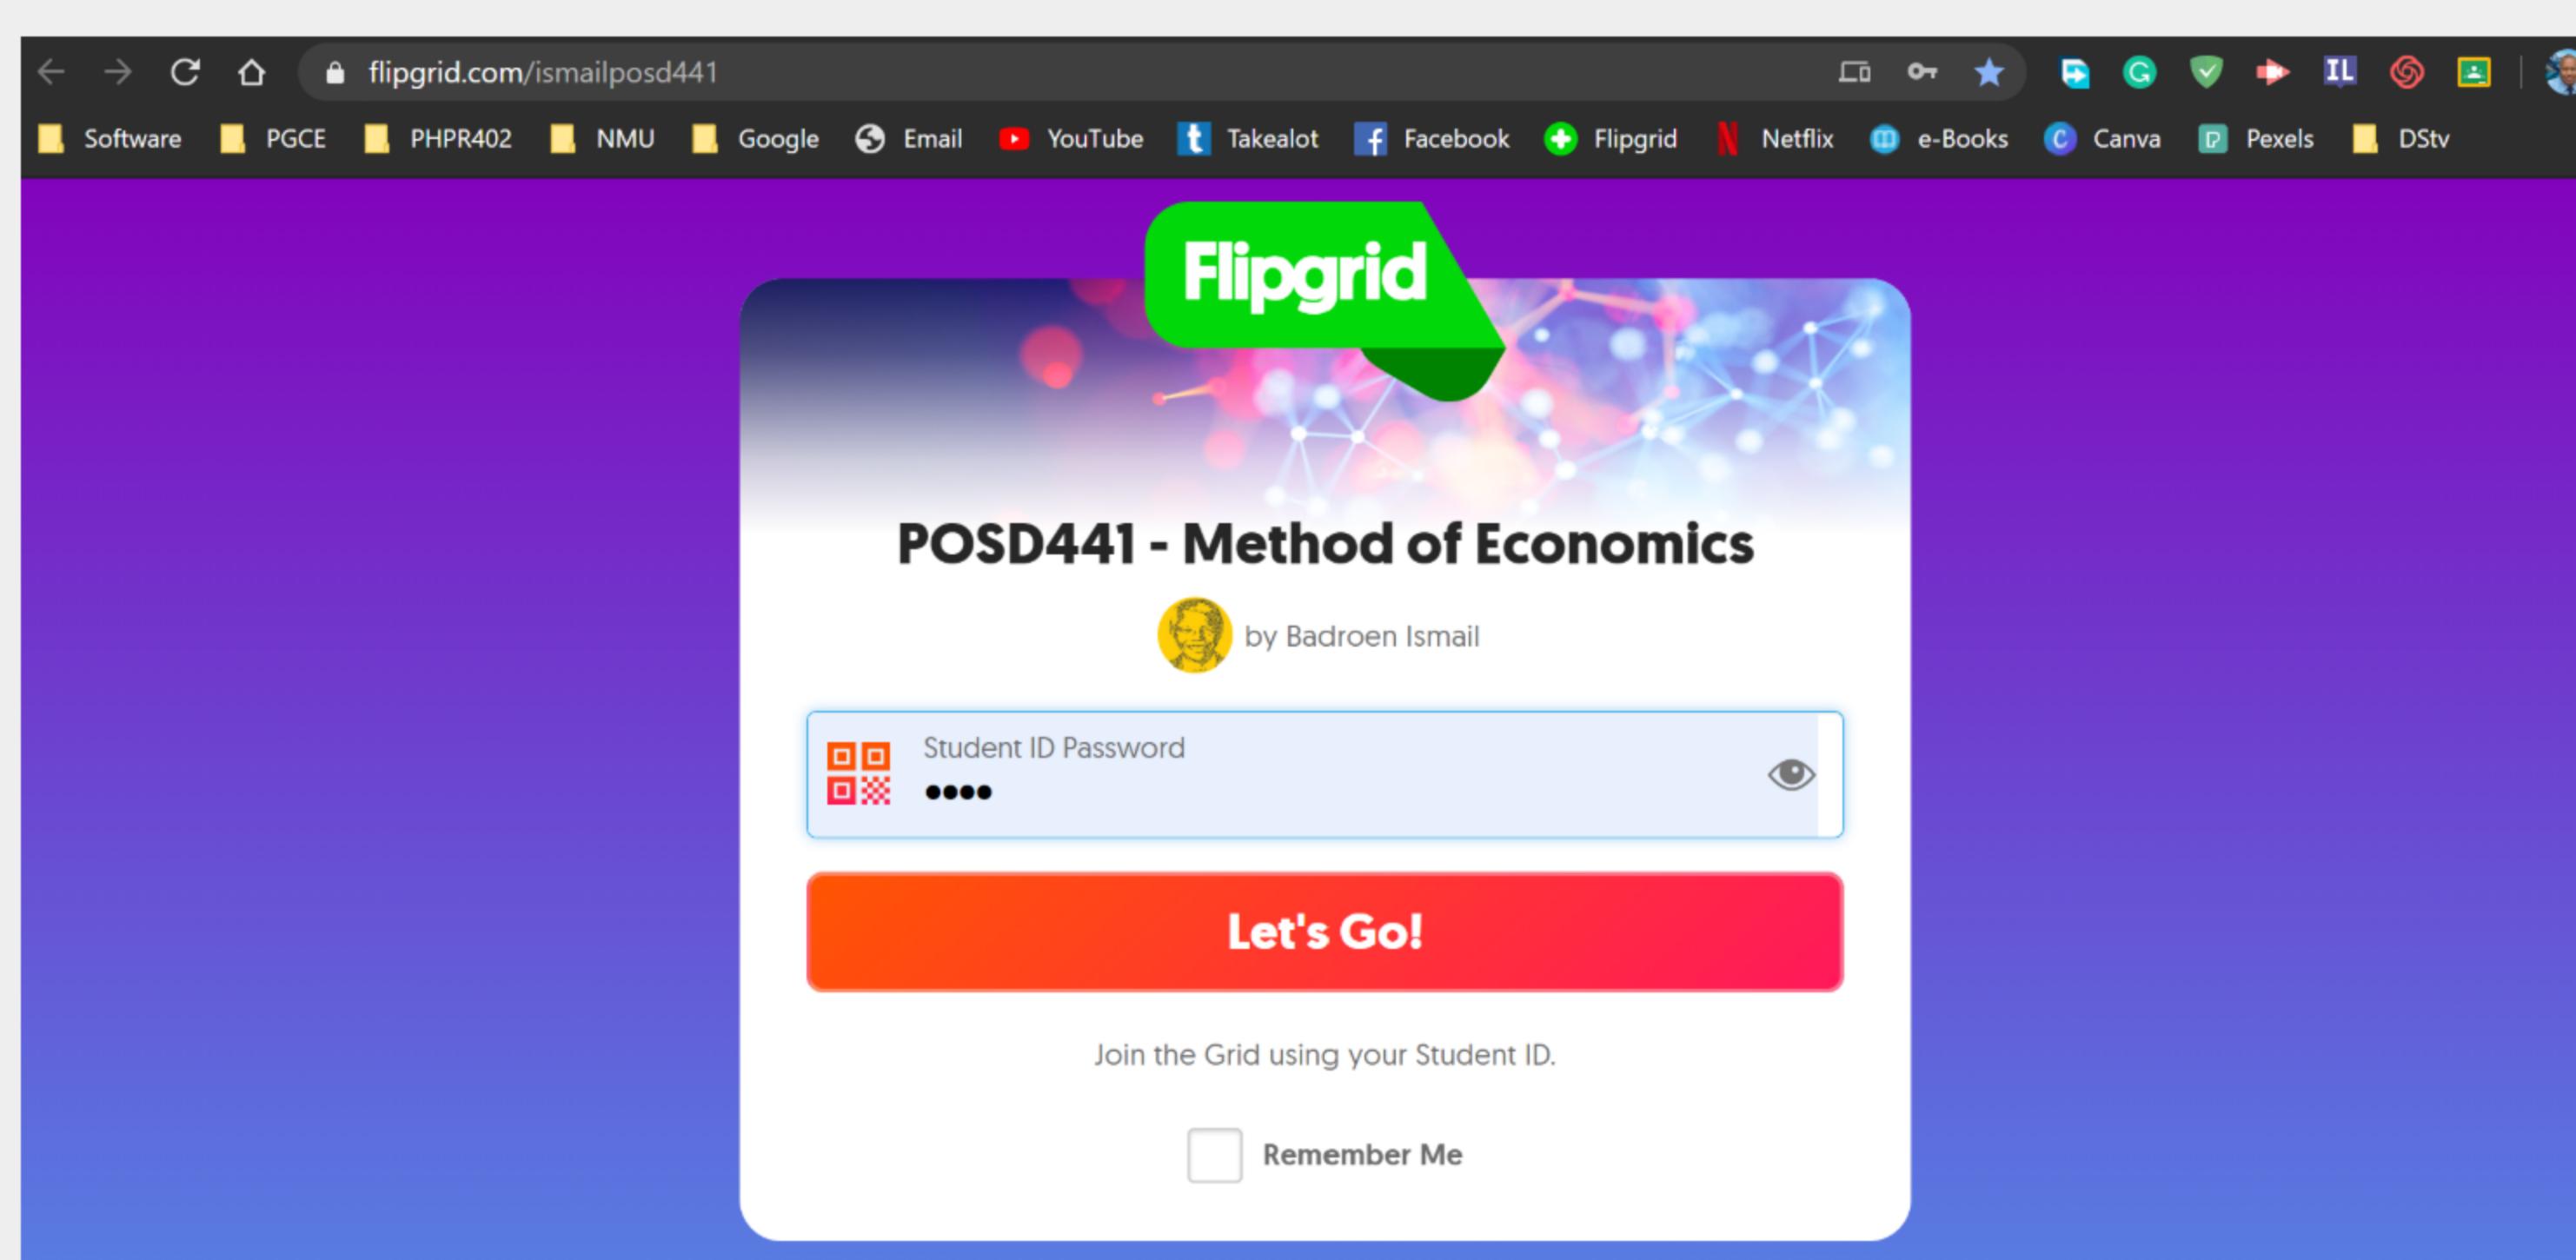

**USE YOUR CELLPHONE NUMBER AS YOUR STUDENT ID PASSWORD.**

You may also download the accompanying FlipGrid apps from the Apple and Google Play stores.

**As an ice-breaker:** Now that we have become strangers to one another through social distancing, why don't you tell me how you've experienced this COVID-19 lockdown and how, in your opinion, we could possibly salvage the 2020 academic year.

**Request:** When you post videos or responses to this site, please be considerate of other peoples' feelings, opinions, and beliefs. Feedback, via email or Whatsapp, will be appreciated. :)

Assignment 1 - Situational Analysis

Edit

### INSTRUCTIONS

The objective of this activity to acquire a 'feel' for the school in which you will be doing your School-based Learning (Professional School-based Practice) with a view to thinking critically about aspects indicated below.

The outcomes for this period are as follows:

- To complete a school situational analysis in a written format based on pointers provided;
- To reflect and write about an experience outside of the classroom;
- To critically reflect on, and write about, planning and assessment and its uses;
- To identify best practices for your own personal growth;
- To complete a classroom situational analysis in a written format based on pointers provided on at least three lessons you observed;
- To provide an opportunity for you as a student to articulate questions that you have in your mind about various aspects of teaching;
- To use this completed observation as a tool to engage in discussions with your lecturer and fellow students;
- To insert this completed observation as part of your method module's assessment.

Assignment 4 - Lesson Planning

Edit

### INSTRUCTIONS

You have to plan a lesson on the **Production Possibility Curve** by using the abridged lesson plan template provided. You must be as

comprehensive as possible. This means that anyone who reads your lesson plan has to know exactly what to do. Hence, be very clear and specific. Nothing must be left out. What you say, do, ask, tell, instruct, group work, etc. must be clearly indicated as well as what you require from your learners [e.g. their responses].

**INSTRUCTIONS**

1. 'The Teaching, Learning & Assessment (TLA) of Microeconomics (data response graph work) poses serious challenges to examiners, teachers, and learners'. You are required to answer the following questions appropriately, highlighting the allocation of marks to facilitate the assessment (marking) of the given data response questions. Ensure that you observe the 'scaffolding' principle when allocating marks.
2. Construct the accompanying marking guideline, observing the principles applicable to the composition of a marking guideline in Economics.

❖  Assignment 6 - Critique of a Question Paper 

Edit▼

**INSTRUCTIONS**

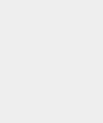

Acquire a question paper for Grade 10 Economics (or Grade 8 EMS) from the school that you are/were teaching at. Study the question paper and the memorandum and write a report on it with reference to the following points:

1. The weighting of the different fields of Economics in the question paper – does it adhere to the required prescription?
2. The cognitive level of the questions set. What is the percentage of easy, medium, and difficult questions in the question paper and does it meet the prescribed requirements. Is Bloom's Taxonomy used? Is a scaffolding system being used in the setting of the questions?
3. The content tested – Is the correct content being tested as prescribed in the CAPS? Are all the responses in the memorandum correct?
4. The Technical layout of the paper and the memorandum. Does it meet the prescribed requirements? Can you make any recommendations?
5. Any other aspects that you would like to highlight or recommendations you would like to make.

This report must be typed up and should not exceed 5 pages. A copy of the question paper and the marking guideline that you critiqued should accompany the report.
